

WHAT DO YOU THINK ABOUT ENVIRONMENT AND LANDSCAPE?

February 2005 Public Meetings

WINCHBURGH DEVELOPMENT INITIATIVE

How could the canal be improved?

What about a new canal basin in the town centre?

What do you think should be provided in new parks and sporting areas?

New sporting and recreational facilities?

A brand new public park around the Claypit?

Is there any public or open space that is not well used?

How can open spaces and play facilities (existing and new) be made safe and pleasant?

- What sporting facilities and open spaces do you think Winchburgh needs?
- How can the Canal and water courses be better used?
- Where do you think are the most important wildlife and woodland areas?
- Where are the important views/vistas?

- If we made the Claypit area into a town park what would you like to see in the park?
- How do you think the local historic features could be integrated with the new housing?
- What is your favourite space in Winchburgh or elsewhere?
